AB **Concrete** compns. with improved sound- and heat-insulating
 properties are produced for use in building structures and for preformed
concrete elements. The **concrete** compns. consist of
 12-50 weight% of rubber aggregates or fine powder (with grain size of 0-6
 mm), 12-27 weight% of Portland **cement**, 20-80 weight% of sand and 6-15
 weight% of water.
 ST sound thermal insulation **concrete cement**
rubber aggregate sand
 IT **Rubber**, processes
